

## A Little About Me!

We all have different reasons for sharing our lives with dogs. My reason is plain and simple... they are my passion and I have had them my entire life. One must have a good attitude, passion, integrity, and dedication to achieve a great retriever. I have competed in confirmation, obedience, AKC/UKC Hunt Test; I have also judged hunt tests. Any dog that is properly trained to hunt in real life can pass any Hunt Tests. My degree in psychology and sociology complements training of dogs and their owners.

*"In order for a dog to learn and be happy to do it; the instruction must be fun and exciting!"*

Obedience • Gun Dog Programs

Tracking • Dog Handler Instruction

Boarding & Training

Private & Group Lessons

Behavior Modification

*Passionately Training  
Since 1981*

### Puppy Head Start

**Program Length: 4 to 6 weeks**

This program is similar to the "Basic Gun Dog" course but with a focus on confidence, which is the building block for a great retriever. This program also offers a few extra added perks for being a puppy plus by starting training early it will make life more enjoyable for your dog and yourself.

### Basic Gun Dog

**Program Length: 3 to 4 months**

This program is designed to expose an inexperienced or young retriever to as many scenarios as they may experience during the hunting season. The "basic" program will focus on: obedience, introducing simulated hunting conditions with birds, guns, decoys, and boats.

*"Exposure, Fun, and Confidence are key to a great retriever!"*

### Intermediate Gun Dog

**Program Length: 3 to 4 months**

The intermediate program is designed to produce a retriever companion that can handle the majority of situations that may arise during a normal hunting season. This program will introduce complex marking and basic blind handling, Force-To-Pile, the "T" Drill, swim-by and marking multiple birds down with diversion to both the dog and handler/owner.

*At RAVE Retrievers we believe that owner participation is extremely important for your dog's training. The length of the programs will vary depending on your dog and your involvement in the process*

**\*Please Contact Me Regarding Pricing\***

### Advanced Gun Dog

**Program Length: 4 to 6 months**

This program is intended for those who desire a hunting companion that can tackle any obstacle in the field and are willing to dedicate their own time and energy to completing the program.

### Tune Ups

**Program Length: 1 to 3 months**

In order to stay a sharp and proficient retriever/handler, you and your dog need practice. Tune-ups are designed for the retriever-handler team who has previous experience in the field, but needs a refresher in training and obedience work to prepare for the upcoming hunting season.

### Rave Retrievers is dedicated to ALL breeds!

We offer obedience classes for those that would enjoy a well-mannered dog and/or behavior modification for dogs with troublesome problems. We are located in New Braunfels, Texas.
